

a low cost solution for national charities, pub chains, tourist venues and entertainers.

### Screening

Un-paused, 8-race DVD's run for about 2 hours, 6-race DVD's for 90 mins and 4-race DVD's for about an hour. The DVD's should preferably be played on a standard DVD player and either screened on a TV or using a projector, onto a big screen. Amplifiers should be used with large events so sound is not drowned out by the audience.

### Legality

The events are classified as a lottery with prizes in the UK and normally betting is with cash. Our website provides guidelines for other countries outside the UK and provides demos of how to run the event as a fundraiser where the law may differ from that of the UK.

### Full website support

The Fundeo websites contain lots of useful tips and advice, poster 'wizards' which allow you to make-up and print your own posters, useful forms to download, snail racing 'demos' and a rapid on-line personalisation and ordering facility.

### Delivery

Imminent orders are normally processed to arrive in the week prior to the event. All orders are shipped out by special delivery in the UK. A signed-for courier service is used for overseas orders. An express production service optional is available for urgent orders.

In the UK orders should preferably be placed at least 7 working days before an event. For orders outside the UK please refer to the time schedules on our website. Packaging is provided for return of the DVD's after the event.

### Other services

Fundeo also offer brand promotion opportunities for food, snack, sports and beverages within our race films. Please see our website for examples. Enquiries are welcome.
